The sign stated that the rope had been lengthened illegally by the mayor and that people can go anywhere on the beach as long as they don't bother seals. Thereafter, nobody stayed behind the rope, as if it wasn't even there. Nearly a hundred people on the beach at the same time, ignoring the rope, close to the waterline and close to the seals, touching them, kicking them, laying down next to them, taunting them, etc. The divers to encourage people to do these things. When they had chased all seals away from the beach, people then harassed the few seals remaining on the rocks and sea wall, which, by the way, is an accident waiting to happen due to the slippery and rocky terrain. Tourists sent their children up to touch and harass pregnant seals, all the while with the divers just watching.

From what I could see about 7 big seals and 4 pups flushed into the water. The lost pup didn't move. Some more big seals further away in the rocky area looked up, but didn't flush. I couldn't see what went on at the rest of the beach as I had the camera zoomed in at the divers and the pup. there were also two people at the beach, on the wrong side of the rope, waving at the divers. From behind they looked like Hunrichs and Merrywater, but I can't be sure about that. Less than ten minutes later the divers came back. At that time I was bumped from the camera and can't report more.

She looked directly at camera - may have been talked to by lifeguard (we could only hope.) Bob Ewing meanwhile, had set up a chair and backpack on wet side of rope. Soon followed by family of three children in bathing suits and beach toys on wet side.

214	Friday	05/24/2013	13:00	18	Jadee	1:10- 10 people on beach and 18 Seals flushed. SDPD Called. People harrassing seals crossing rope and harrassing seals. Description - A total of 10 people (appeared to be high school aged) visited the beach. At first respectful of the seals. When one male layed out on the rock this caused seals to slowly move. Then one male walked towards seals on the beach and kept getting closer as though to pat them. The seal reacted and the male moved away. When he persisted the SDPD was called. The people then started crossing the rope and walking up to the seals. One of the seals did not move and 4 people were patting it on sea side of rope. The seals started to flush towards the ocean. The people were taking some photographs and harrassing seals on both sides of the rope. Another call was placed with SDPD to alert them of the number of people and the urgency of this incident. The person who answered the phone was "unaware there was a seal cam until we explained the online web cam. One of the people pointed out the sign on the rope and this was ignored by at least half the people. "

## Casa Beach Harbor Seal Flushing Incident Details September 1, 2012 - January 22, 2015

Day of Week	Date	Time	# Seals Flushed	Intentional Harassers Present	Observer Name	Notes	
225	Sunday	06/09/2013	17:05	20	YES	Deb/Jane	5:05 pm - One of the Waggoner twin boys climbed down the sea wall to the rock below and dove into the pool and caused flush of 20 seals. The ranger had just left, and the lifeguards did not want to cite, so I called the police and filed a complaint. Two officers arrived at the beach and took my statement. Unfortunately the Waggoner boys were not around at the time. (Jane can provide info on Incident # and officer names.)

230	Saturday	06/15/2013	11:30	8	YES	Pam	Pam - Sunny & warm - low surf - Many people on ocean side of the rope. Many divers. Many swimmers. Seals were very skittish all day. They tried to haul out, but were constantly scared away. They twins ran wild across the beach and over the seawall railings. They were on the rocks west of the seawall so I believe that is why no seals were there. The 8 seals at 11:30 were flushed - I don't know why, and never returned.

Day of Week	Date	Time	# Seals Flushed	Intentional Harassers Present	Observer Name	Notes	
311	Wednesday	07/17/2013	22:00	40	YES	Mollie	Tonight at about 22:10. Four people on the wall shined very bright wide lights on the seals. This caused most of the seals to leave the beach.. women. The men were wearing dark pants and light tops. The woman was wearing clothes that were the same darkness for both top and pants. I called the police. The indecent is P13070033796. The police said they would send someone out. The people left the visual area of the wall and the camera and I could not pick them up again.
312	Thursday	07/18/2013	09:00	34		Ellen/Jadee	9:00 Big flush with 24 left on beach.. Many stayed swimming around submarine rock. I saw one construction worker behind upper level wall

315	Friday	07/19/2013	21:30	17		Tamara	7:00pm- I was at Jane's, not sure what happened, but my computer crashed. When I left Jane's shortly before 8 pm, I stopped by the beach and there were many people across the rope and crowding about 5 seals against the sea wall. I saw a lifeguard on the sidewalk and asked him if he had spoken to the people. He said he had not, but his partner was on the beach at that moment speaking to the people. About 5-7 people ignored his request and still were very close to the seals (< 10 feet).
316	Saturday	07/20/2013	08:40	14		Ellen	At 7:40am - About 14 flushed because of four people on sand between seals and rope line. They stayed a few minutes then left beach via center stairs. I picked up phone, but did not complete call as camera caught flush - but I didn't see people soon enough to connect them with flush-even though I know they did it. Looked very much like uneducated (unaware) tourists.

At first I thought they were taking pictures, then they began shining lights on seals for few minutes. A few seals moved toward water. I called police. Location of seals: primarily - a, near sea wall; small group of 8 or so near c, east side. Note 2: INCIDENT 13077041736 Two men showed up on beach and began harassing seals, near wall side, from rope. They crossed under the rope and began waving their arms, looked like they were throwing sand, yelling, going back and forth under the rope doing this. One seal, about 5 feet away (seal was on the seaward side of rope), was very, very agitated and started going toward them. They continued to harass this seal. Seals in the vicinity began moving away/leaving beach. Hard to say how many - 10?

477	Wednesday	08/27/2014	19:15	1		Terri Mitchell	1 man walked on beach from one end to another with purpose, like he had done it before. I suspect he was one of the usual suspects i have heard about doing this before. I did not approach him but 1 seal did leave the rock, however with the activity of people climbing up and down the wall on the seaward side of the rope, it wasnt surprising.
478	Friday	08/29/2014	07:00	39		RG	A guy with go-pro helicopter was being respectful & video taping the outer edges. Suddenly he took the go-pro to the east side & was lowering go-pro until I responded. The guy left. I really think he had no idea his go-pro would cause such an issue.
