221	02/07/2016	9:20 AM	Sun	LM	0	0	0	27	27	0		63	61	5.02 ft. and dropping	Silver pup alone near wall like yesterday when Zach reported. One small, thin sea lion pup admist the group of harbors in the middle of the beach. Called Seaworld about silver pup around 9. I was told he's got a few more hours on the 24hr watch. They are aware of the situation. Just a few people on the sidewalk. Kind of quiet right now! Tide and waves are beautiful coming over the sea wall at times.

2016 Casa Beach Seal Counts, Raw Data

(January 1 - December 31, 2016)

	Date of Count	Time of Count	Day of Week	Docent Name	# People Landward	# People Seaward	# People in Water	# Seals on Beach + Rocks	# Seals Landward	# Seals Flushed	Weather	Air Temp	Water Temp	State of Tide	Notes
316	02/21/2016	4:07 PM	Sun	LM	0	0	0	102	0	0	SCT	67	62	1.33ft. and rising	Of the 102 seals 10 were pups. This morning around 10:45/11:00 amethyst was born. Lori, myself, Andrea, Antionette, Lynn Lauman and my Sea Shepherd family Heather Heffernan, and Kimber and Mike Hamilton all witnessed this birth. Later we went to S. Casa and patrolled the beach keeping everyone away from two nursing moms. Around 3:00 p.m. another pup was born to a large grayish mother. We named this pup Azul because of a blue hue. Great day! So peaceful!
317	02/21/2016	11:30 PM	Sun	LM	77	0	0	82	8	0			58	Falling	Initially foggy with bigger waves. Waves smaller as time went out and fog cleared to Sunny Sky by midmorning. Noticed that two different people had dogs on the wall-ranger said nothing he was there for one. Many other docents were with me and so was marine biologist Antoinette. Moms and pops in training in water near shore. Abandonned pups trying to sneak milk. One mother reacted aggressively, biting one of the pups several times in the tail area.
318	02/22/2016	5:50 AM	Mon	JG	0	0	0	26	2	0					Included in counts: 4 pups seaward

2016 Casa Beach Seal Counts, Raw Data

(January 1 - December 31, 2016)

	Date of Count	Time of Count	Day of Week	Docent Name	# People Landward	# People Seaward	# People in Water	# Seals on Beach + Rocks	# Seals Landward	# Seals Flushed	Weather	Air Temp	Water Temp	State of Tide	Notes
326	02/22/2016	4:05 PM	Mon	LM	0	0	0	111	0	0	CLR	66	62	0.36ft and rising	Many seals and pups on beach. 17 pups to be exact most look to be with moms except for 'Jet' who Antionette says mom is a little aloof. Pup looks great though. One white pup with black spots whose mom is very light colored were on the west rocks at the very end near the top of he stairs. Pup looks very new; has umbilical chord that is bright pink. On S. Casa 7 seals four with pups including 'Jade' and 'Opal.' Gold pregnant female that I have been observing for three days now should have her pup ver soon. Can still see her pup very active in her belly. Kelly Nordstrom and I educated many tourists that were coming and going on S. Casa. Great day! The total count above 111 includes 17 pups.

															9:23 pm high tide. One mother and pup on South Casas, though several were observed in the water offshore of South Casas. 5 people on the beach near the two seals. When I cautioned them to step away for fear of startling the mother, which could lead to an abandonment, the people cooperated and were pleasant. Two of them thanked me because they didn't realize that the seals are easily frightened and could abandon their pups. I find this to be the usual case - that people don't know and are grateful for the information. It only emphasizes the importance of education for the general public.

															Tide had just turned at 11:19 a.m. 4 seals on South Casas Beach, with lots of people (about 25) and some children playing in the water. An exhausted mother and pup who frequent this beach came ashore, and people were respectful after I asked them to step back from them. A game warden appeared about 12:15 pm and stood watch on rocks half way down the stairs. I spoke to him and he said they are trying to be more present at the request of Michelle at NOAA. He says he typically spends 2 1/2 hours there and another officer then takes over. However, they are short staffed so are doing the best they can. He spoke to several members of the public while I was there. Very excited to see him and a bigger law enforcement presence!

2016 Casa Beach Seal Counts, Raw Data

(January 1 - December 31, 2016)

	Date of Count	Time of Count	Day of Week	Docent Name	# People Landward	# People Seaward	# People in Water	# Seals on Beach + Rocks	# Seals Landward	# Seals Flushed	Weather	Air Temp	Water Temp	State of Tide	Notes
															High tide at 7:20 pm. Lots of footprints landward of the rope, with a few seaward. Some seals were agitated, several males forming a semicircle facing the people on the beach. Two seagulls were nesting (on landward, one seaward) on the beach. Some mating behavior witnessed in the water. Seals in various states of molting. Another docent and I witnessed one man approach the seals, causing flushing of a few of them. This man was foreign and we had warned him and his companion to stay back, from the seals previously. He did back off when they flushed. Two divers entered water north of the seals, with no flushing that time.

878	06/18/2016	9:52 AM	Sat	CU	0	32	10	8	0	8	CLR	76	67	Falling	Tide just starting to fall. Seals observed on rocks at Casa Beach, on near sea wall and on Submarine rock. A woman and boy climbed on the rocks by sea wall and the seals flushed into the sea in panic. A sea gull and two chicks observed on seaward side of rope, and two adult seagulls and one chick seen on landward side. Some people approached for pictures, but backed away when I asked them too. Two scuba divers enter water on Casa Beach without incident. About 14 seals on seaward side of wall on rocks resting.

2016 Casa Beach Seal Counts, Raw Data

(January 1 - December 31, 2016)

	Date of Count	Time of Count	Day of Week	Docent Name	# People Landward	# People Seaward	# People in Water	# Seals on Beach + Rocks	# Seals Landward	# Seals Flushed	Weather	Air Temp	Water Temp	State of Tide	Notes
1230	09/23/2016	8:00 AM	Fri	VB	0	0	0	86	0	30					At 8:00 a.m. a flush of 30 plus seals was caused by the scraping and clanging of a park employee scooping sand up off the sidewalk outside the restrooms below the lifeguard tower. I spoke to the employee and he said he waited until 8:00 a.m. to remove the sand.

															Seals were wary of my presence, even when I stood on sidewalk near the Lifeguard tower. There were five seals on South Casa Beach, but they flushed into the water when I walked down to the top of the stairs. I felt bad about this, but I hadn't made any sudden moves or loud noises, and I was not on the beach. Again, the seals seem very skittish, more than usual. Perhaps it has to do with many of them being pregnant? Perhaps there has been some human harassment (not witnessed by me)?

															<p>I wrote numbers next to the clusters of seals. The group of 4 closest to the street were being harassed and eventually disbanded. I saw a very large one (pregnant?) try to come out of the water to the far right of the beach (if standing on beach); there were too many people and it went quickly back into the water.</p> <p>There was also one sea lion (designated by the "SL" way out of the surf line closer to the lifeguard tower. I don't know why it had sand piled around it and on its back but it laid motionless for so long I was worried and then it finally moved its head.</p> <p>--Polly Kanavel</p>
